

frequency of a local timing signal required for the operation of the radio head.

Remarks

The above amendments are being made in order to eliminate multiple dependency and improper multiple dependency from the application before calculation of the application filing fee for the United States. Should any multiple dependency remain, that is unintended, and the Patent and Trademark Office is requested to cancel any remaining multiple dependent claims without prejudice before calculation of the application filing fee.

Appended hereto is a copy of form PTO-1449 and copies of the references identified thereon.

Examination of the application on its merits is awaited.

Respectfully submitted,

Dated: March 20, 2002
